

Signalschlüssel für den Funksignaldienst

(Funksignalschlüssel)

(Ausgabe Oktober 1939)

Der »Signalschlüssel für den Funksignaldienst (Funksignalschlüssel) (Ausgabe Oktober 1939)« — M. Dv. Nr. 114 — tritt am 14. Januar 1940 in Kraft. Mit dem gleichen Zeitpunkt tritt der »Signalschlüssel für den Funksignaldienst (Funksignalschlüssel)« — M. Dv. Nr. 114 — (Ausgabe 1938) außer Kraft.

Abänderungen des »Funksignalschlüssels« oder des vorgegebenen Ausrüstungskreises sind verboten.

Die »Signalschlüssel« und der Verteilungsplan werden von Zeit zu Zeit durch neue Ausgaben ersetzt.

Bei Nichtgebrauch ist der »Funksignalschlüssel« unter sicheren Verschuß zu nehmen. Der »Funksignalschlüssel« ist wie der Lageschlüssel zum Funkchlüssel M besonders geheim zu behandeln und unter verschärfter Aufsicht durch den Funkoffizier oder M. N. D. bzw. Funkstellenteiler zu halten. Great Gefahr vor, daß der »Funksignalschlüssel« in Feindeshand fällt, so ist er durch Feuer wirksam zu vernichten. Ist dies nicht möglich, so muß er auf andere Weise wirksam vernichtet oder auf tiefem Wasser versenkt werden.

Auf Dienststellen am Lande finden diese Bestimmungen sinngemäße Anwendung.

Oberkommando der Kriegsmarine

Berlin 1939

Signalschlüssel für den Funksignaldienst

(Funksignalschlüssel).

1. Der Signalschlüssel wird im Funksignaldienst bei der Schlüsselung der Signalbuchgruppen mit dem Funk Schlüssel M angewendet. Er entspricht dem **Spruchschlüssel** beim Funkpruchverfahren.
2. Der Signalschlüssel wird der für den jeweiligen Tag gültigen Tafel **beliebig** entnommen und in den Fenstern des Funk Schlüssels M von links nach rechts eingestellt.
3. Außer dem Signalschlüssel werden von dem jeweils gültigen **Tageschlüssel Funk Schlüssel M Allgemein** benötigt:
 - a) Die Innere Einstellung,
 - b) die Steckerverbindungen. (Die Grundstellung bleibt unberücksichtigt.)
4. Der benutzte Signalschlüssel wird durch eine dreistellige Kennzahl gekennzeichnet, die hinter das Kennzeichen α in das Funksignal eingesetzt wird. Die Kennzahl dient ausschließlich zur Mitteilung des benutzten Signalschlüssels an den Empfänger.

Die Kennzahl ist die links neben dem gewählten Signalschlüssel stehende dreistellige Zahlengruppe.
Die Kennzahl wird nicht verschlüsselt.
5. Für den Gebrauch der Signalschlüssel gelten folgende Regeln:
 - a) Die Signalschlüssel sind in **unregelmäßiger** Reihenfolge der Tafel zu entnehmen.
 - b) Es ist für die Schlüssellichkeit von ausschlaggebender Bedeutung, daß für jedes Funksignal möglichst ein anderer Signalschlüssel benutzt wird.

Um das zu erreichen, sind bei ausgehenden Funksignalen die Kennzahlen der benutzten Signalschlüssel auf der Tafel »Signalschlüssel« mit Blei leicht anzuhaken. Soweit wie möglich, ist dies auch für die bei eingehenden Funksignalen verwendeten Signalschlüssel durchzuführen.
 - c) Es ist anzutreiben, daß die Signalschlüssel mit dem gleichen Anfangsbuchstaben auf den ganzen Tag gleichmäßig verteilt werden.
 - d) Auf dem Schlüsselzettel sind Kennzahl **und** der benutzte Signalschlüssel einzutragen.
 - e) Muß ein Funksignal neu verschlüsselt werden, so ist ein anderer Signalschlüssel mit entsprechender Kennzahl zu benutzen.
6. Die zu einer Ausgabe gehörenden Tafeln »Signalschlüssel« werden durch den Verteilungsplan auf die einzelnen Monattstage verteilt.
7. Jede Signalschlüsseltafel gilt für den gem. Verteilungsplan bestimmten Tag von 0000 Uhr bis 2359 Uhr.

Verteilungsplan der Tafeln »Signalschlüssel«

Zu M. Dv. Nr. 114.
