SUBJECT: Communications Security Equipment - TSEC/KY-65/75  
(PARKHILL) (NU)

1. (NR) The TSEC/KY-65 and TSEC/KY-75 are tactical narrow band secure voice equipments produced by the United States.
2. (NC) The TSEC/KY-65 is the portable or vehicular version and the TSEC/KY-75 is the airborne or shipboard version. The two are interoperable and are used in the AWACS air-ground HF voice communications. These equipments were designed for tactical applications only and are available to NATO for the AWACS environment and possibly certain other tactical applications such as CROSSFOX. In any NATO application it should be considered as an interim solution pending the selection of a NATO Standard Narrow Band Secure Voice System.
